Extranets: Sharing Knowledge & Information with Customers and Partners

Extranet solutions by ClearPeople

ClearPeople creates custom extranets that allow organisations to communicate and collaborate with their external business partners, customers, suppliers or vendors. Our extranet solutions help our clients share data and information as quickly and cost effectively as possible.

If you are interested in boosting your extranet's profile with an exciting design - look no further. ClearPeople's creative division, Loud & Clear, delivers resounding digital designs.

What are the benefits?

Extranets are a cost effective way of sharing information with your trading/business partners 24 hours a day, while reducing the volume of emails. Expenses will decrease and overall efficiency will increase mainly through process automation. They can be used for numerous functions including:

- A secure way of sharing information
- A secure way of providing additional subscription services
- Online ordering and tracking of goods
- Custom views of data or reports

Why ClearPeople?

ClearPeople has implemented SharePoint extranets for many organisations that need to provide their clients with secure access to portal environments. This experience, combined with ClearPeople's three Microsoft Gold Competencies in Digital Marketing, Portals & Collaboration and Content Management are among the reasons we were selected to participate in Microsoft's Extranet Jumpstart programme. We are a well-known specialist provider of SharePoint services and solutions and have worked with organisations in a wide range of sectors including the Legal & Professional Services, Charity, Public, Property, Financial Services, as well as Utilities and Transport.

What our customers say

"By working with ClearPeople, Stena has been able to use SharePoint to become a more efficient and communicative organisation. We relied on their expertise to lead the project and it was apparent that they were a highly skilled and competent team."

Pär Persson, Manager Business Technology Stena

"One of the reasons that our project was a success overall was that we worked with ClearPeople. The team was incredibly dedicated to make it work for us in a really short time."

Simon Gilhooly, Global Infrastructure Manager Linklaters
