

Intelligent Knowledge Platform for law firms

Atlas 6

Atlas is the leading Intelligent Knowledge Platform for Microsoft 365, trusted by law firms worldwide.

It centralizes, auto-classifies, and validates content from Microsoft 365, iManage, NetDocuments, and other apps, delivering reliable answers from approved sources.

With both intranet and extranet client portal capabilities, Atlas enhances collaboration while enabling scalable enterprise AI solutions.

What Atlas does for you

- Captures knowledge seamlessly and at scale across the firm.
- Provides accurate and authoritative answers to easily share with colleagues and clients.
- Replaces your legacy client portal with a secure and modern, AI-powered experience.
- Streamlines Microsoft tools, enterprise systems and content into a single platform.
- Makes your firm more competitive when lawyers can find and share answers fast.

"Our lawyers need to find information fast, so bringing together our knowledge into a 'Google like experience' with Atlas, is highly valuable for Stradley."

All-in-one platform

Knowledge Management

Atlas centralizes and auto-classifies content across Microsoft 365, empowering employees to access and share collective knowledge and locate experts.

Knowledge Intranet

Brings together people, processes, and tools in a single platform to foster collaboration and knowledge sharing.

Extranet for Client Portals

Powerful client self-service capabilities that transform how you deliver services and collaborate with clients.

Atlas AI

Create and leverage internal knowledge collections to surface accurate insights that align with your firm's expertise.

Governance

Effortlessly create and manage workspaces across Microsoft 365.

Why Atlas?

✓ Unified view of everything

Atlas brings together all your content from Microsoft 365 and other apps into one powerful platform.

✓ Contextual knowledge

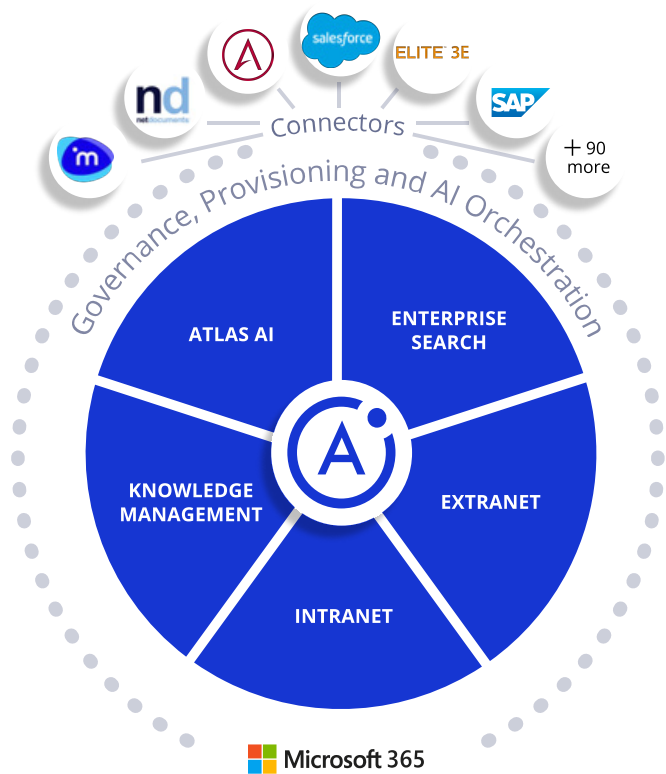

Atlas makes it easy for every employee to access and contribute relevant knowledge right where they are working.

✓ Find information instantly

Atlas's powerful search and AI-capabilities ensure that finding the right information is fast and effortless.

Enterprise Search

Atlas aggregates content across Microsoft 365 silos, helping you find information, people, and collaboration workspaces from a single interface. Upland BAInsights connectors extend Atlas Search to like SAP, Salesforce, Dynamics CRM, iManage, and other enterprise systems. Using AI, machine learning, and automation, Atlas delivers unmatched search results.

✓ Seamless Integration with M365

Atlas is purpose-built to integrate seamlessly with Microsoft 365, enhancing the tools you already use daily.

✓ Self serve securely

Atlas enables employees to self-serve, with unmatched governance and provisioning capabilities.

✓ Expert-like answers from AI

Atlas enables employees to tap into the most credible sources of enterprise knowledge.
